Hi, I'm Rabeel Imran.

Undergraduate Computer Science student at Superior University. I'm learning C++ and object-oriented programming, and I'm looking for an IT internship where I can build real experience.

Contact me | See my project

About me

I'm a motivated BS Computer Science student who enjoys technology and programming. I learn by building projects, and I want to grow by working with experienced professionals.

Superior University
BS Computer Science, undergraduate

C++ and OOP
Currently learning and practicing

Amazon
Hands-on work experience

Based in Lahore
Pakistan

Skills

What I'm learning and what I already use.

Programming

C++

Object-Oriented Programming

Design

Canva Layouts

Color combinations

Academic project

A C++ program built to practice the programming concepts I learned in class.

Student Management System (C++)

A C++ program that stores and manages student records.

- Organizes student information in one program.
- Applies programming and OOP concepts from my coursework.

C++ OOP

Experience

Work and design experience outside the classroom.

Amazon

I have worked on Amazon, which gave me practical experience with how online platforms operate.

Canva designer

- Create digital designs in Canva.
- Use different layouts and color combinations for visual content.

Education

Bachelor of Science in Computer Science (BSCS)

Superior University, Lahore

Current semester: 3rd

Main course: Object-Oriented Programming (OOP)
